

# PRESTON RIVER REVITALISATION PROJECT

## Community information session

Join the Leschenault Catchment Council on the 22<sup>nd</sup> April 2021 to hear about our Preston River revitalisation project and how you can get involved.

The Preston River Foreshore in Donnybrook has undergone substantial environmental degradation over time, yet continues to provide significant environmental, cultural and recreational values to the community and the river ecosystem. Help us preserve this important part of the landscape.

To register for the information session, please email [katrina.za@leschenaultcc.org.au](mailto:katrina.za@leschenaultcc.org.au) or call 9791 4773.

### Information session
